

Openings Studio™

Celebrating the success, envisioning the future

3.5 Release Notes

ASSA ABLOY

Experience a safer
and more open world

Celebrating the success, envisioning the future

It's the end of the year. It's time for celebration and cheer, and we're happy to be sharing in the good tidings with the latest release of Openings Studio. While we wrap up this year, we're already in development of some fantastic new enhancements and features coming in 2020. Look for more on that soon!

We're pleased to welcome South Africa and Vietnam to our growing list of global deployments! It's great to see that the full potential of collaboration continues to spread around the world.

In this release, you'll find little gifts such as the ability to filter on the Summary tab, filter the Door Schedule by Plan View or select multiple attachments to upload to Plan View.

Looking for more information beyond this set of release notes? Make sure to visit the Openings Studio Knowledge Base, which is referenced at the end of the release notes. There, you'll find more tips, tricks and tutorials to help you get the most out of this incredible software tool.

If you have questions about this release, please don't hesitate to reach out to your local BIM Manager or Openings Studio Consultant.

Cheers,

Paul Candy

Global Director of BIM Technologies

Table of Contents

- 02 | Filter openings on Summary tab
- 03 | Filter Door Schedule by Plan View
- 03 | "Phase" column added to Door Schedule
- 04 | Highlight Duplicate Mark numbers
- 04 | Select multiple attachment files for upload in Building View
- 05 | Editing of project Price Books disabled
- 05 | Allow/disable mapping for non-consultants
- 06 | Elevation mark tags will grow to accommodate text length
- 06 | Use capital or lowercase on PDF uploads
- 07 | Openings Studio Knowledge Base
- 08 | Comprehensive, around the world support

Filter openings on Summary tab

Users can now filter the Door Schedule by hardware set from the Summary tab. (A).

Selecting the filter icon (B) in the Summary tab tool bar will show all openings containing the hardware set shown in the summary.

To clear filters, click on the filter icon again or on the Clear Filters button on the Door & Frame Schedule (C).

The screenshot shows the software interface with the following components:

- Summary Tab:** Displays details for a door opening (Mark 3) with hardware set T13. The hardware list includes:

Qty	Type	Product	Finish	Power	Manufacturer
1	Continuous Hinge	MCK-14HD x LAR	CL		McKinney
1	Exit Device (storeroom)	16 AD8504 Less Pull	US32D		SARGENT
1	Cylinder	Cylinder as required	626		Yale
1	Electric Strike	9600-LBM	630	⚡	HES
1	Pull	RM201 Mtg-Type 12XHD	US32D-316		Rockwood
1	Concealed Closer	0608 N	689		Rixson
1	Door Stop	483 EXP	US26D		Rockwood
1	Threshold	171A MS10SS			Pemko
- Door & Frame Schedule:** A table listing door openings with columns for Mark, RFI, Level, To Room, Config, CurtainPanel, Width, Height, Thickness, Handing, Fire Rating, Acoustic Rating, Arch Material, Arch Type, and Type.

Mark	RFI	Level	To Room	Config	CurtainPanel	Width	Height	Thickness	Handing	Fire Rating	Acoustic Rating	Arch Material	Arch Type	Type
3		Level 1	Vestibule G	SG	☐	915	2134	50	LHR	🔥			B	B
4		Level 1	Main Hall K	SG	☐	915	2134	50	LHR	🔥			B	B
8		Level 1	Lockers Corridor H	SG	☐	915	2134	50	LHR	🔥			B	B
9		Level 1	Lockers Corridor H	SG	☐	915	2134	50	LHR	🔥			B	B
11		Level 1	Classroom Corridor...	SG	☐	915	2134	50	LHR	🔥			B	B
12		Level 1	Classroom Corridor...	SG	☐	915	2134	50	LHR	🔥			B	B
13		Level 1	Classroom Corridor...	SG	☐	915	2134	50	LHR	🔥			B	B
14		Level 1	Classroom Corridor...	SG	☐	915	2134	50	LHR	🔥			B	B
15		Level 1	Classroom Corridor...	SG	☐	915	2134	50	LHR	🔥			B	B

Filter Door Schedule by Plan View

Quickly see the openings on a level by selecting the desired level (A) and then selecting the filter icon (B) in the Plan View toolbar.

After doing so, the Door & Frame Schedule will only show openings for that specific level (C).

The screenshot shows the software interface with three main areas:

- Hardware List (Top Left):** A table listing items like HI-2 (Hinge), LO-1 (HOTEL LOCK), CL-2 (Surface Closer), ST-3 (Wall Stop), TH-3 (Threshold), GA-3 (Gasketing), and GA-6 (Gasketing) with their respective descriptions and prices.
- Plan View (Top Right):** A floor plan diagram of a room labeled 'Kitchen & Dining 101'. A red circle 'A' highlights the level selection dropdown, and another red circle 'B' highlights the filter icon in the toolbar.
- Door & Frame Schedule (Bottom):** A table showing filtered openings for Level 1. The table includes columns for Mark, RFI, Level, Usage, Ext, To Room, From Room, Inactive, Qty, Config, CurtainPanel, Width, Height, Thickness, Handing, Fire Rating, Smoke Rating, Acoustic Rating, Arch Material, Material, Arch Type, Type, Vendor, and Series. Red 'X' icons are visible in the Mark column for items 104, 105, 106A, and 106B. A red circle 'C' highlights the filter icon in the toolbar.

“Phase” column added to Door Schedule

To add Phases to openings, go to Column Visibility located in the options setting in the Door & Frame Schedule tool bar (A), or by right-clicking in the Door & Frame Schedule.

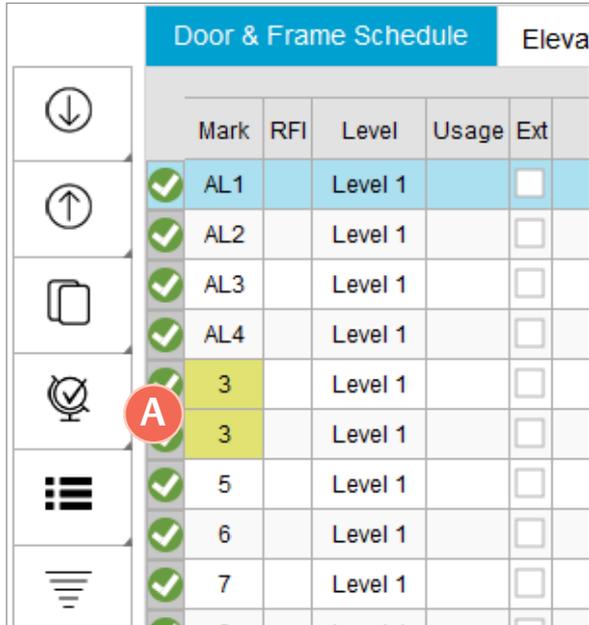

Select Phase (B) and a new column will be added to the Door & Frame Schedule (C).

The screenshot shows the 'Column Visibility' settings and the resulting table:

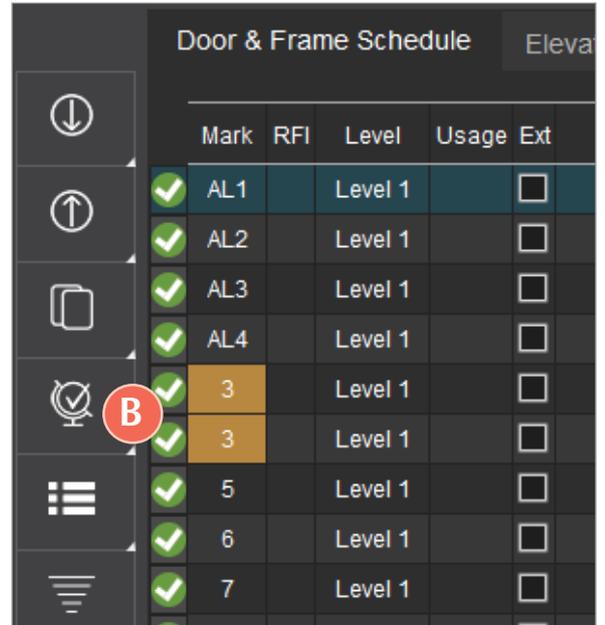

- Column Visibility (Middle Left):** A dialog box with 'View Type' set to 'Detailed View'. A list of columns is shown with checkboxes. 'Phase' is checked, indicated by a red circle 'B'.
- Column Visibility Settings (Top Left):** A toolbar with options: AutoFit Columns, Simple View, Detailed View (checked), and Column Visibility (highlighted with a red circle 'A').
- Door Schedule Table (Right):** The table now includes a 'Phase' column. The 'Phase' column contains a green checkmark for one of the entries. A red circle 'C' highlights the 'Phase' column header.

Highlight Duplicate Mark numbers

Duplicate door or mark numbers are now easier to identify with the addition of highlighting to both the light theme (A), and the dark theme (B).

	Mark	RFI	Level	Usage	Ext
✓	AL1		Level 1		<input type="checkbox"/>
✓	AL2		Level 1		<input type="checkbox"/>
✓	AL3		Level 1		<input type="checkbox"/>
✓	AL4		Level 1		<input type="checkbox"/>
✓	3		Level 1		<input type="checkbox"/>
✓	3		Level 1		<input type="checkbox"/>
✓	5		Level 1		<input type="checkbox"/>
✓	6		Level 1		<input type="checkbox"/>
✓	7		Level 1		<input type="checkbox"/>

	Mark	RFI	Level	Usage	Ext
✓	AL1		Level 1		<input type="checkbox"/>
✓	AL2		Level 1		<input type="checkbox"/>
✓	AL3		Level 1		<input type="checkbox"/>
✓	AL4		Level 1		<input type="checkbox"/>
✓	3		Level 1		<input type="checkbox"/>
✓	3		Level 1		<input type="checkbox"/>
✓	5		Level 1		<input type="checkbox"/>
✓	6		Level 1		<input type="checkbox"/>
✓	7		Level 1		<input type="checkbox"/>

Select multiple attachment files for upload in Building View

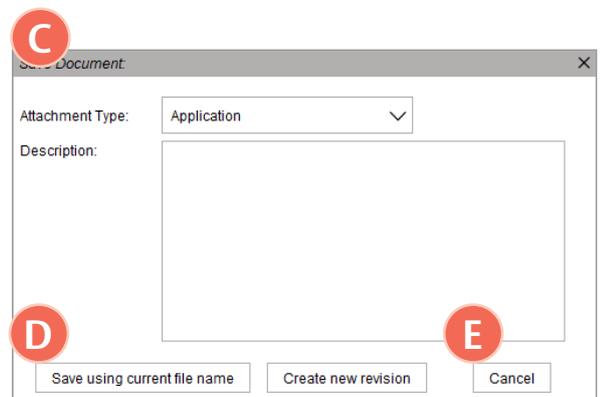

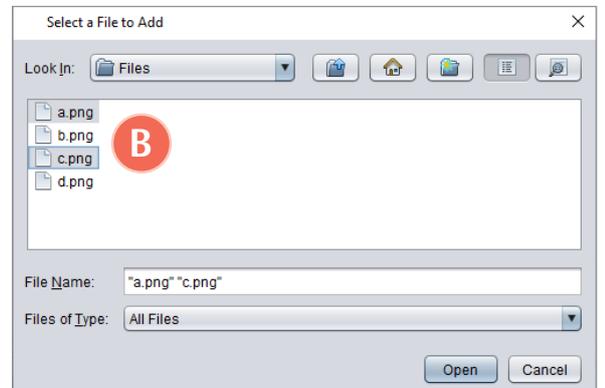

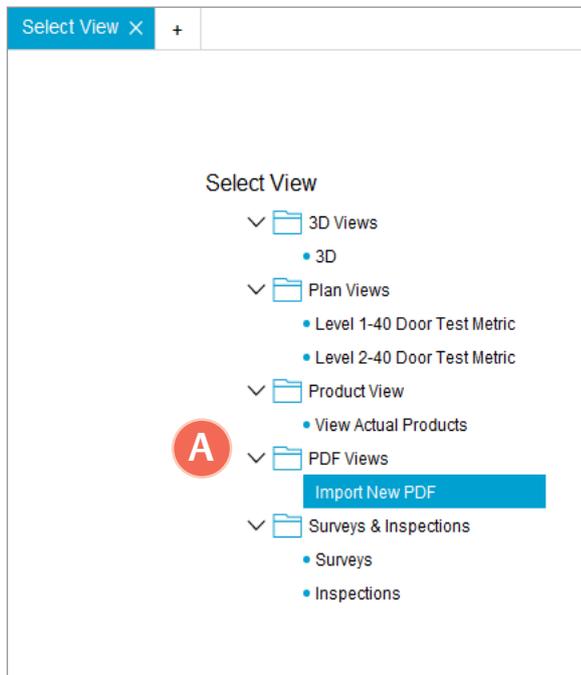

Tired of adding files one at a time? Quickly upload multiple files to a project in Import New PDF View (A).

When the pop-up appears, select the files you would like to upload (B).

Use quick keys **CTRL+ Select** (mouse-click) to select documents, or select consecutive documents. Deselect by using **CTRL+ Select** (mouse-click).

During the Save Document process (C), you can save the file using the current file name (D) or cancel the upload (E).

Note: Canceling the upload will move you to the next document in the queue.

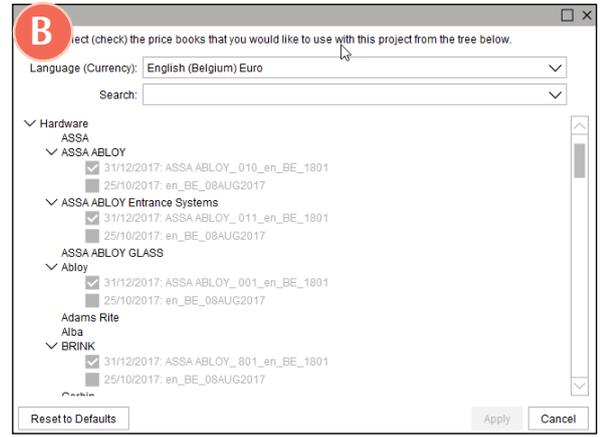

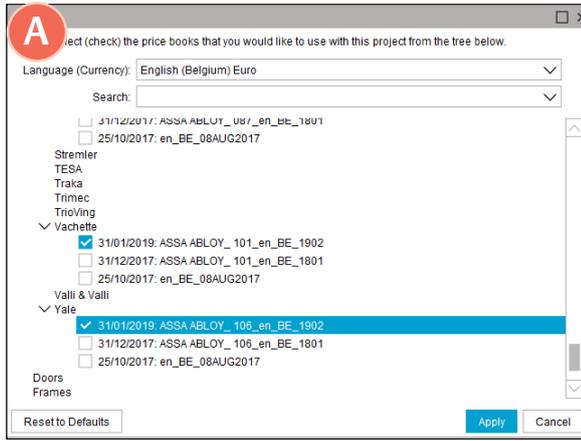

Editing of project Price Books disabled

The ability to edit Price Books in a project without products (A), and a project with products (B) has been adjusted.

For projects without products, now, users can only select one Price Book per vendor. To do so, select the appropriate check-box and click Apply.

For projects with products, Price Books will not be editable.

Note: Without products, users can only select one option in each Price Book. With products, users can't select an option in Price Books.

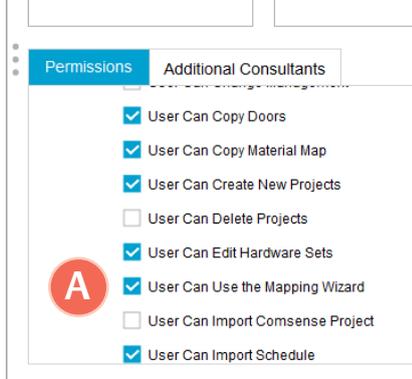

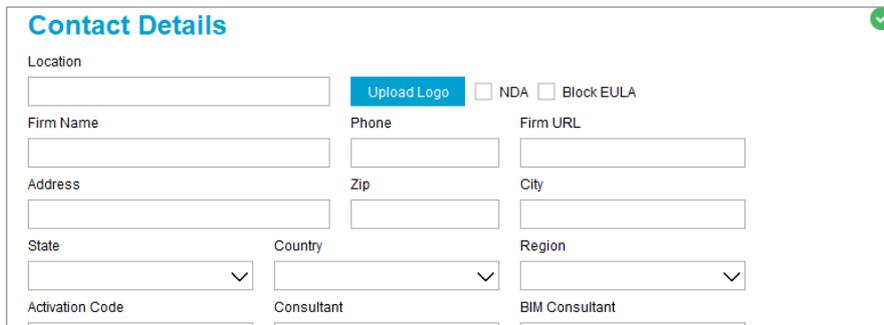

Allow/disable mapping for non-consultants

The ability to map projects (A), has been added as a permission.

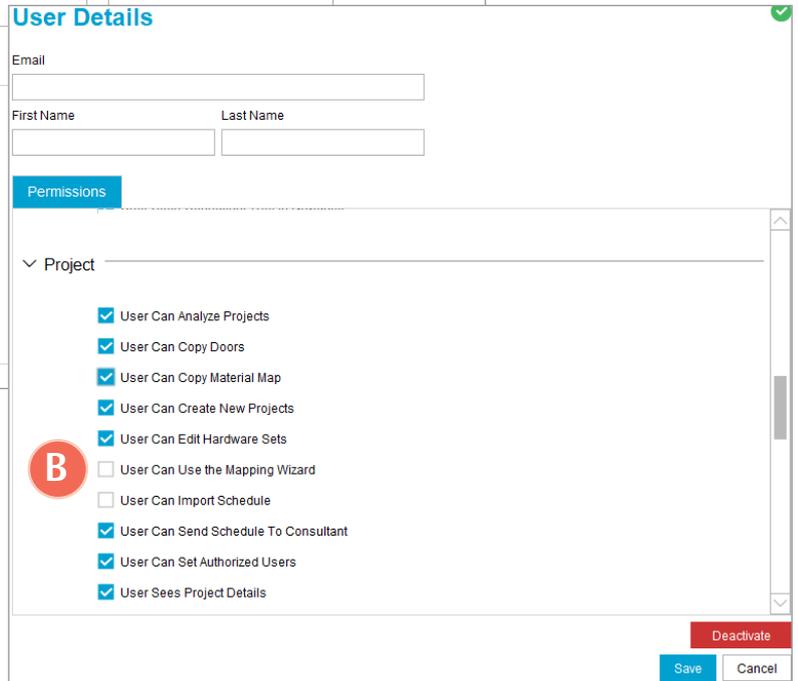

First, select *User can use the Mapping Wizard* within the firm level Contact Details under Project.

Then, to give access to a user, select *User can use the Mapping Wizard* in the User Details under Projects (B).

Click Save to update the permissions.

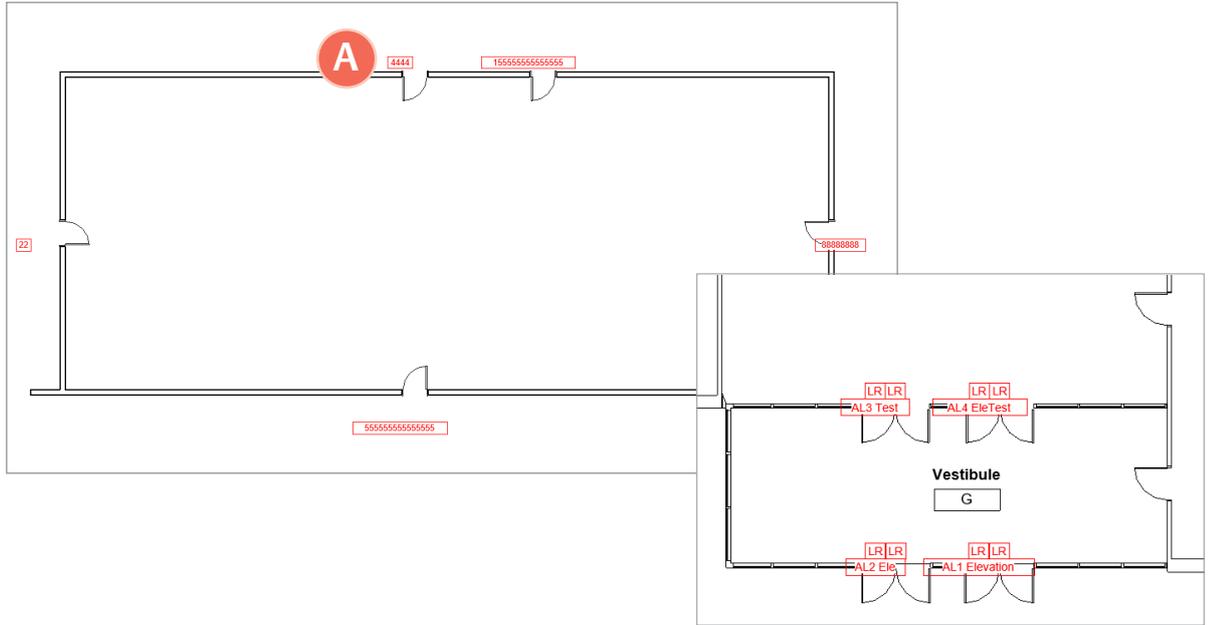

Permission must be set at Firm level first.

Elevation mark tags will grow to accommodate text length

Security consultants can now add more characters to security elevations, which will be displayed near the elevation's mark (A).

Use capital or lowercase on PDF uploads

PDFs can now be uploaded with either lowercase or uppercase extensions (A).

A project has been analyzed using Openings Studio. You can review details of the recently analyzed project below.

New FAQs added to the Knowledge Base

- How do I detach a Revit® project from central?
- Do I need to detach my model to analyze?
- Does everyone in my firm need to be out of the model to analyze it?
- Why are the hardware sets not populating in the doors from a linked model after the Export process has completed?
- Why do I need to export/import linked models separately?
- Does everyone have to exit the Revit® model for me to Export/Import parameters or families to Revit®?

Access the Knowledge Base for personalized information

Easily search the Knowledge Base for frequently asked questions, installation guides and videos.

A To access, you will need an active Openings Studio account and you must be logged into Openings Studio to view videos, tutorials and guides.

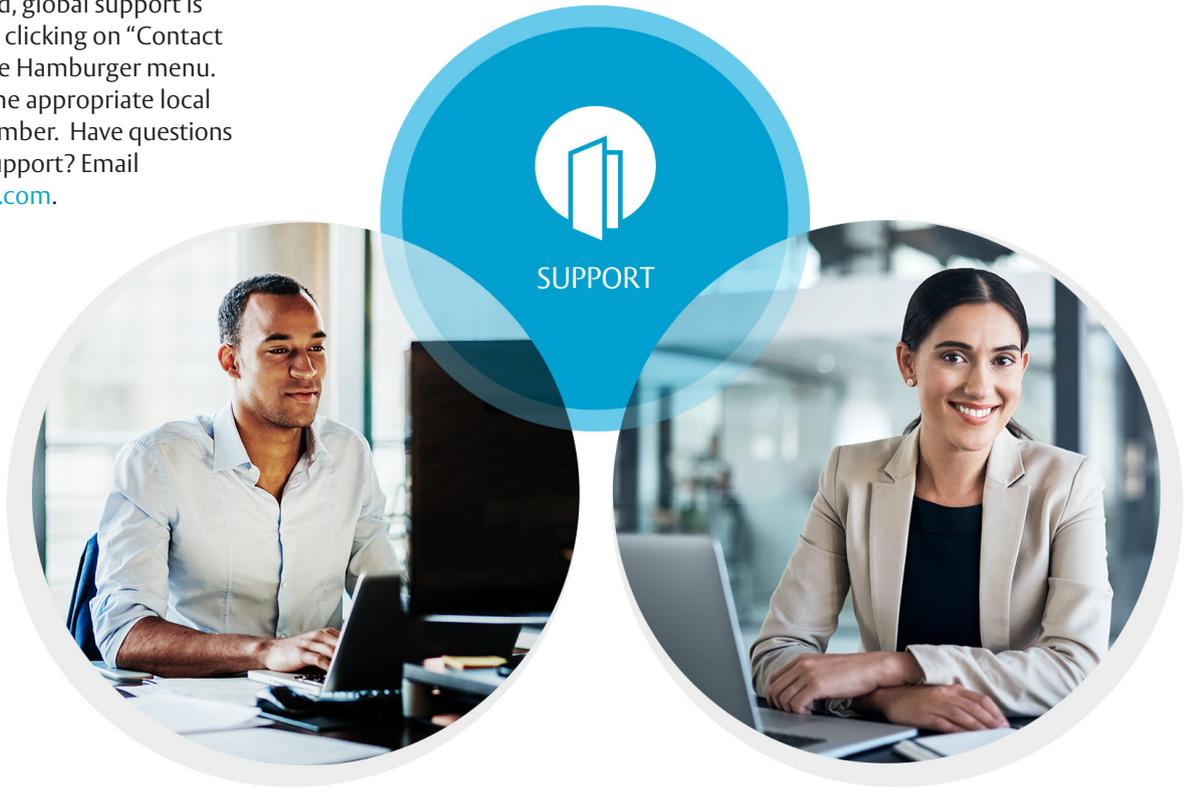

B Click on the Hamburger Menu at the top of Openings Studio.

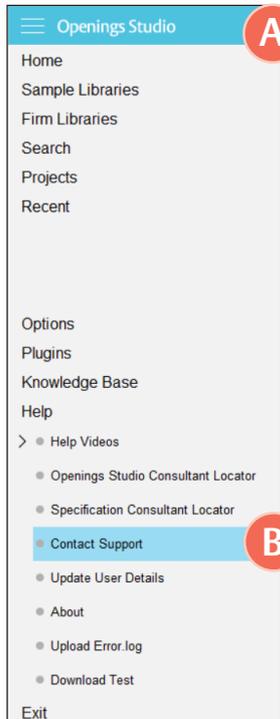

C Click on Knowledge Base.

Comprehensive, around the world support

In addition to access to the Openings Studio Knowledge base, personalized, global support is available. Submit requests by clicking on “Contact Support” under Help from the Hamburger menu. Requests are designated to the appropriate local or regional support team member. Have questions related to Openings Studio Support? Email knowledge@openingsstudio.com.

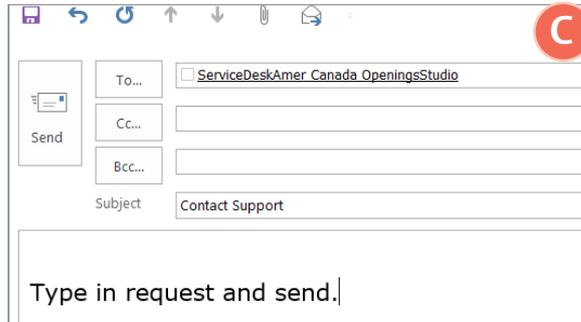

Need more support?

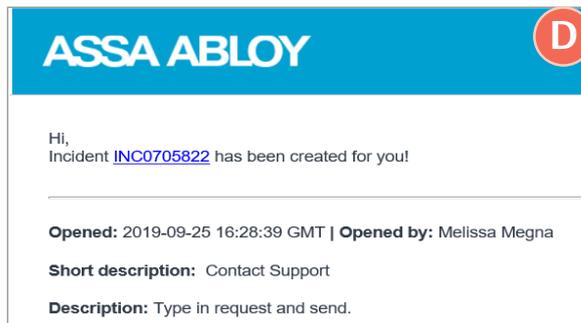

Click on the Hamburger Menu at the top of Openings Studio (A).

Under Help, click on Contact Support (B).

An email will pop-up from your email client, pre-addressed to the appropriate support team. Add your support request and hit send (C).

You will also receive a verification email that a service ticket was created (D).

Need more help? The ServiceNow User Guide is available to ticket fulfillers from the Consultant Home page.

The ASSA ABLOY group is the global leader in access solutions. Every day we help people feel safe, secure and experience a more open world.
